# **THE CONVERGENCE TRIFECTA**

***WHY BLOCKCHAIN, IOT & AI WILL CHANGE EVERY INDUSTRY***

**RIGHT HERE  
RIGHT NOW  
TODAY™**

*"WINNING IN THE FUTURE IS ALL ABOUT HOW WELL YOU KNOW THE WORLD AROUND YOU. THE REALITY IS THAT BLOCKCHAIN, ARTIFICIAL INTELLIGENCE AND THE INTERNET OF THINGS ARE GOING TO BE THREE KEY TECHNOLOGIES THAT WILL SHAPE THE WORLD OF TOMORROW. KNOW THESE AND YOU WILL WIN!"*

**IAN KHAN**

## WHAT IS CONVERGENCE & THE TRIFECTA

Emerging technologies will have a severe impact on our lives. Although many new technologies are currently being developed, you can however categorize them broadly under three buckets. Internet of Things - where everything is connected, Artificial Intelligence - bringing automation and freedom, and Blockchain - bringing a new way of storing and exchanging information. These three collectively form the Technology Trifecta.

## MOST RELEVANT FOR

Leadership, Strategy, Future

## KEY POINTS

This keynote provides an excellent understanding of what technologies are going to have the most profound impact on business, timeline and how to adapt to a world driven by tech !

1. What is the emerging technology trifecta
2. Difference between IoT, Blockchain & AI
3. The role of Automation, Freedom and Connectivity
4. How information will dictate our lives
5. The business of the future and the impact of tech
6. Jobs, Human Capital, productivity & Value Creation
7. How organizations must adapt to a world driven by technology

# ABOUT IAN KHAN

The Future is driven by convergence. On one hand, it is the convergence of Artificial Intelligence, Blockchain & the Internet of Things and on a different plane it is the convergence of Trust, Automation, & Experiences. For Public & Private entities creating and delivering impact and value, the future is least likely to be about financial results, as automation and technology will ensure profitability. What will remain is impacting the lives of people, solving problems and anticipating obstacles before they arrive.

Futurist, Ian Khan delivers an impactful session on helping understand the colossal changes that the world of tomorrow will undergo and why unlocking human potential should be the first goal on any organizations agenda. Ian Khan's most popular session, "7 Axioms of Value Creation", helping organizations create a success path by understanding why Purpose, Execution and People are the driving force behind success.

Ian Khan is a CNN featured Technology Futurist, 3 times TEDx Speaker, Director of highly acclaimed documentary "Blockchain City", Bestselling author of "7 Axioms of Value Creation", and contributor to many publications including McGraw Hill and Forbes. He is also a founding member of the Government Experience (GX) initiative by the Prime Minister's Office, UAE.

One of the most widely quoted experts on Blockchain, Ian is on a mission to "Unlock Human Potential" by helping understand how technology can help us become more Efficient, Happy and more Human. Ian has spoken at industry conferences including Microsoft Worldwide Conference, World Government Summit, Money2020, SWIFT and helped hundreds of organizations with their digital transformation journey.
