DIGITAL DOMINO

PREDICTING THE FUTURE OF A DIGITALLY DRIVEN WORLD

*"FROM CRYPTOCURRENCIES TO DIGITALLY TRANSFORMED WORKPLACES AND BEYOND.
THE FUTURE IS GOING TO BE NATIVELY DIGITAL WHERE MULTIPLE INNOVATIONS
TOGETHER WILL CREATE A DOMINO EFFECT, FUELLING UNPRECEDENTED CHANGE"*

IAN KHAN

A DIGITAL WORLD IS CREATING A DOMINO EFFECT

About 50 years ago, Alvin Toffler said that "Technology Feeds on Technology". A remarkable statement that stands true even today. Technology give birth to new and faster mechanisms replacing the old. As a result the future becomes faster, much faster. Decision makers in every industry are struggling to find the right balance between what is Real and what is Hype. This keynote lays down the foundation of what every executive should focus on

MOST RELEVANT FOR

Leadership, Strategy, Future, Infrastructure, Transportation, Buildings, Retail, Governments

KEY POINTS

Laying down the Real expectations from a Digitally emerging world, this keynote adds tremendous value to every audience.

1. Distinction between Reality & Hype
2. Which Digital technologies are Realistic and in What timeframe
3. The evolution of a digital world
4. The changing state of Work, Automation, and Efficiency
5. How Organizations can shape their Digital Destiny
6. The next frontier in Digital Transformation
7. The 7 Pillars of Successful Digital Transformation

ABOUT IAN KHAN

The Future is driven by convergence. On one hand, it is the convergence of Artificial Intelligence, Blockchain & the Internet of Things and on a different plane it is the convergence of Trust, Automation, & Experiences. For Public & Private entities creating and delivering impact and value, the future is least likely to be about financial results, as automation and technology will ensure profitability. What will remain is impacting the lives of people, solving problems and anticipating obstacles before they arrive.

Futurist, Ian Khan delivers an impactful session on helping understand the colossal changes that the world of tomorrow will undergo and why unlocking human potential should be the first goal on any organizations agenda. Ian Khan's most popular session, "7 Axioms of Value Creation", helping organizations create a success path by understanding why Purpose, Execution and People are the driving force behind success.

Ian Khan is a CNN featured Technology Futurist, 3 times TEDx Speaker, Director of highly acclaimed documentary "Blockchain City", Bestselling author of "7 Axioms of Value Creation", and contributor to many publications including McGraw Hill and Forbes. He is also a founding member of the Government Experience (GX) initiative by the Prime Minister's Office, UAE.

One of the most widely quoted experts on Blockchain, Ian is on a mission to "Unlock Human Potential" by helping understand how technology can help us become more Efficient, Happy and more Human. Ian has spoken at industry conferences including Microsoft Worldwide Conference, World Government Summit, Money2020, SWIFT and helped hundreds of organizations with their digital transformation journey.
